Tracey - I just want to acknowledge how much we appreciate all the work you do on dot com - and you do it seamlessly! It occurred to me yesterday when we were talking about the data center browse and all the work you do on that, that you should be very proud. As I mentioned, the data center business is doing well and we are almost out of space to lease. I have to believe that our dot com feature has something to do with that success! Great job ;)

I truly enjoy working with you, and as I sit here planning out my next "web-related", I know that you will welcome it with open arms, no matter how "weird" it may seem ticket.

- Comments:** On a relatively short time line, we pulled Tracey into the Google-Level 3 CDN Marketing push to help make changes to the Level3.com site. She quickly contributed ideas that enhanced our marketing push and amongst her already busy schedule, found time to implement those ideas. She was also very flexible with respect to ongoing changes and timing of a launch. Her positive "get-it-done" attitude was a great addition to this marketing initiative.
